EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bradley J. Thorson on March 8, 2006.

The application has been amended as follows:

Claim 1, line 16, --;

wherein said bottom surface further comprises a projection extending downwardly therefrom, the projection having an abutting surface configured and arranged to contact the rear surface of a lower course of blocks when said block is placed thereon, the abutting surface operating to position said block in a predetermined relation relative to the lower course of blocks on which it is placed--

has been entered after "surface";

Claim 4, line 1, "3" has been deleted and replaced with --1--;

Claims 3 and 19 have been canceled.

The following is an examiner's statement of reasons for allowance: with respect to Figure 2 of Risi et al. (U.S. Patent Des. 301,063), considering the upper left surface in the figure as the top surface, with the rear surface toward the top of the figure and the notches as claimed at the upper right and left sides, limitations of the independent and dependent claims are met or within ordinary skill, save for dependent claim 3. With respect to claim 3, addition of the projection as

Art Unit: 3671

claimed would hinder the ability of the blocks of Risi et al. to be used with one another. Since the addition of the structure would essentially destroy the reference, the modification is clearly not within ordinary skill. Claim 1 is hereby amended to incorporate this structure; thereby defining over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary Hartmann whose telephone number is 571-272-6989. The examiner can normally be reached on Monday through Thursday, 9am-7pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Will can be reached on 571-272-6998. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
